Tree Ring

Most of the beauty of tall trees is lost in the evening time when the sun disappears from the horizon. When using our unique tree ring light you are able to capture the beauty of the palm fronds and canopies that the trees provide by illuminating them at night. Our tree ring comes in 18", 24" and 32" diameters to fit various sizes and styles of trees. It's unique half-inch threaded fitting allows for customizing in it's use with any of our landscape products and can house up to six lights per ring. The tree ring is sure to provide all of the necessary ambient lighting directionally up and/or directionally down on even your tallest trees.

Housing: Two- piece waterproof hinged polymer body in 18", 24" 32".
Wiring: All wiring is encapsulated inside the ring body.
Voltage: Available in 120 volt or low voltage depending on application.
Colors: Two colors in stock with custom colors available.

Mushroom Light

TerraCast multi use residential / commercial Mushroom Lights are made from a very durable, non rust, impact resistant polymer rein. The Mushroom Light fixture can be used for walkways, pathways, and landscape accent where visual down lighting is a key element. The bulb options from TerraCast give the user the ability to cast a soft or medium glow that will add aesthetics to all garden landscaping needs while providing safety to walkways by projecting down lighting. The product comes in Sandstone and Granite with custom colors run on a special order basis. The Mushroom Light w 22" color coded ground stake is sturdy enough to withstand gardener interaction and can add visual appeal to any residential or commercial application. The bulb is easy to change by removing 3 stainless steel thumb screws.
