TerraCast[®]

THE LEADER IN OUTDOOR RESIN MADE PRODUCTS

As an American owned and operated company, we use environmentally friendly materials and practices. One of our environmentally friendly materials is the unique resin-blend that we use to create our eco-friendly products. As the leading manufacturer and vendor of roto-molded planter pots, we are committed to the health and well being of the economy, the planet, and the future.

With the use of resin, we offer products that are up to 75% lighter than traditional planters, virtually indestructible, maintenance-free and cost-effective. We have the perfect solutions for you no matter how big or small your project is. Our fully customizable products will fit the needs of your business to a "T".

Visit WWW.TERRACASTPRODUCTS.COM for our full line of products.

TerraCast[®] IN NYC

Our planters can be seen throughout New York City, with spectacular installations in noteworthy locations such as Times Square, Herald Square and in the Flatiron District.

We are a proud vendor of the New York City's Department of Transportation. As seen here, our Step Planters and Vase Planters are used as a decorative border, creating a safety barrier for New York's pedestrians and auto traffic.

HALF ROUND

The Mediterranean rolled rim design on this Half Round planter allows layouts around walls, furniture and in combinations to create full circles. Available with and without garland.

*For color names and clarification, please refer to
WWW.TERRACASTPRODUCTS.COM

GW-21	20"	14.5"	10.5"	17"	11

HARTFORD PLANTER

A versatile alternative to walls and rails, the Hartford was designed to segregate outdoor cafe spaces. It has a very similar look to our Californian and Catalina style. Similar to Catalina style, the top lip design comes to a point, allowing for a dramatic high/low spectacle for spectators when placed adjacent to each other. The main difference is the tapering design of the Catalina style, where Hartford planter is designed to have straight walls.

*For color names and clarification, please refer to

ALL **TerraCast**[®]
PLANTERS ARE
ECO-FRIENDLY!

MILLENNIUM RECTANGULAR II

The new and improved Millennium Series come in a single-wall construction with added inner liner and ribs for increased stability. The TerraCast Millennium Straight Rectangular Planter (TSR) is meant to segregate outdoor spaces with lush foliage instead of tasteless barriers.

*For color names and clarification, please refer to WWW.TERRACASTPRODUCTS.COM

QUARTER CIRCLE

The most versatile planter in the line. Create quarter circles, rounds and half rounds. Creates a 65.5 in. full circle.

Featured on page 10.

*For color names and clarification, please refer to WWW.TERRACASTPRODUCTS.COM

ROMAN ROUND

A gallantly tapered and boldly fluted planter, the Roman Round Planter makes a masculine ensemble for many plants, bushes, and small trees. A good companion to the Roman Square Planter. Comes in 25" diameter wide and 21.5" tall.

*For color names and clarification, please refer to WWW.TERRACASTPRODUCTS.COM

SAN JUAN SHORT

When used in conjunction with the San Juan tall, this 12" high planter creates a dramatic high-low effect in courtyards or on streetscapes.

*For color names and clarification, please refer to WWW.TERRACASTPRODUCTS.COM

MODEL #	TOP(OD)	TOP(ID)	BASE (ID)	HT.	WT(LB.)

TerraCast®

BRAND YOUR CITY, PARK, BUSINESS OR PROJECT WITH CUSTOM GRAPHICS

We can create branded options for promotional products that are much more permanent than a banner, sign, pen or tote bag.

This is a unique opportunity to cast your brand onto a beautiful TerraCast® planter and set it into the design as a permanent fixture in the landscape or interiorscape of your project!

If you are a vendor, you could design a line of planters with your logo and slogan on them, and install them inside or outside of your customers' establishments. It's a permanent promotional opportunity that offers great value for your customers as well as your company. Call one of our Customer Service agents to help you with your project.

INTRODUCING: SELF WATERING SYSTEMS

Save time and money by utilizing TerraCast®'s self-watering system. Our reservoir uses a gravity-defying moisture wicking system, effectively and efficiently drawing water up to the roots. Prevent over-watering and reduce your watering cycles from days to weeks*. Our watering system provides 15% more water capacity compared to other brands. Made from the same durable LLDPE resin material our planters are made of, this reservoir is guaranteed to last significantly longer compared to other watering containers. Made in the USA. Ships within days. All reservoirs include watering tube and cap. Length of fill tube varies with the size of planters ordered, or indicate the length of tube.

**Many environmental factors effect watering cycles.
Watering cycles may vary depending on the location.*

ROUND RESERVOIRS

Our self-watering reservoirs simplify plant care with a consistent water supply. Available in various sizes, they fit most planters. Measure your planter's inside base diameter and choose a smaller reservoir size for the best fit. Each includes a 1 1/2" PVC pipe and cap for easy refilling, which can be cut to your planter's height.

MODEL #	DIAMETER	HEIGHT	NO. OF GALLONS
TC-WWR8	8"	4"	.80
TC-WWR12	12"	4"	1.90
TC-WWR14	14"	4"	2.50
TC-WWR18	18"	4"	4.25
TC-WWR21	21"	4"	5
TC-WWR28	28"	4"	9

TC-REC3794

Our rectangular self-watering reservoir comes in a 37" long, 9" wide, and 4" tall. This model will fit any planter with the inside base length of 38" and above. Comes with a 1 1/2" diameter PVC pipe and cap. If you're considering which size you need, reference your planter's inside base length and width.

MODEL #	W X L	HEIGHT	NO. OF GALLONS
TC-REC3794	37" X 9"	4"	4.7

**ALL TerraCast®
PLANTERS ARE
ECO-FRIENDLY!**

WHY TerraCast® PLANTERS

All of our planters are made in America. Every single one of our offices, warehouses, facilities and factories stand proud on US soil. We craft our resin from a Linear Low Density Polyethylene that is up to 100% recycled and recyclable material. Our planters are made through a three-step process called rotational molding, or roto-molding, making our final product lighter and virtually indestructible.

TerraCast® planters come in a rainbow of solid colors, along with six proprietary faux-stone blends. We can match and design any color or texture for your resin products. One or two people can easily unload TerraCast® planters from the truck and move them to their destination on-site, saving on overall time and project costs. In the end, your decision to buy with TerraCast® will save you money, fuel the American economy, protect the environment, and help to save the world.

 **LESS EXPENSIVE**
